

Braveheart Bio to Participate in Cantor Global Healthcare Conference

September 1, 2026

SAN FRANCISCO, Sept. 01, 2026 (GLOBE NEWSWIRE) -- Braveheart Bio, Inc. (Nasdaq: BRVE), a clinical-stage biopharmaceutical company developing next-generation therapeutics for hypertrophic cardiomyopathy (HCM) and other serious cardiovascular diseases, today announced that it will participate in the Cantor Global Healthcare Conference, being held September 9-11 in New York, NY. Management will participate in a fireside chat on Thursday, September 10, 2026 at 3:20 p.m. EDT.

Interested parties may access a live webcast by visiting the News & Events section of the Braveheart website at <https://ir.braveheart.bio/>, with replays available in a temporary archive following the event.

About Braveheart Bio

Braveheart Bio is a clinical-stage biopharmaceutical company focused on developing therapies for patients with hypertrophic cardiomyopathy (HCM) and other serious cardiovascular diseases. Braveheart Bio's lead product candidate, BHB-1893, is a next-generation oral small-molecule cardiac myosin inhibitor (CMI) being developed for the treatment of obstructive HCM (oHCM) and non-obstructive HCM (nHCM). Braveheart Bio is aiming to address the limitations of currently available CMIs by designing BHB-1893 for rapid onset, consistent depth of response, preservation of systolic function, prompt reversibility, and a straightforward approach to titration and monitoring.
